Rational

```java
class test {
    private int cat = 0;
    test(int cat) {
        this.cat = cat;
    }
}
```

- [ ] ddfdfk

Use the `System.out.println()` function. 😁

Left-Aligned	Center Aligned	Right Aligned

```
| Left-Aligned  | Center Aligned  | Right Aligned |
| :------------ |:---------------:| -----:|
| col 3 is      | some wordy text | $1600 |
| col 2 is      | centered        |   $12 |
| zebra stripes | are neat        |    $1 |
```

```
| Left-Aligned  | Center Aligned  | Right Aligned |

| :------------ |:---------------:| -----:|
| col 3 is      | some wordy text | $1600 |
| col 2 is      | centered        |   $12 |
| zebra stripes | are neat        |    $1 |
```
